WORK EXPERIENCE

Application Administrator, Qore, Remote

Sept 2024 - present

- Drove reliable deployments with Octopus, ArgoCD, Helm, and Jenkins on Kubernetes and Azure.
- Improved system uptime through proactive monitoring and automation to reduce service interruptions.
- Ensured secure and compliant releases by enforcing deployment and version control standards.

SRE, Softcom Limited, Remote

May 2022 - Dec 2023

- Reduced incident resolution time by 40% by implementing observability and monitoring with Elastic + CloudWatch.
- Designed and maintained alerting systems that prevented multiple hours of downtime per quarter.
- Created [observesoftcom](#), an internal tool that improved developer debugging efficiency by 30%.
- Streamlined SDLC for Eyowo and Kwiksell projects, ensuring on-time delivery in AWS environments.

DevOps Engineer, Africa Prudential, Contract-Role

Jan 2023 - June 2023

- Automated deployments with Jenkins + GitLab CI, reducing release cycles from days to hours.
- Managed Kubernetes clusters to ensure above 95% uptime and efficient resource utilisation.
- Integrated IaC practices with Terraform, improving deployment reliability by 25%..

Freelance Technical Writer, AdamTheAutomator, Remote

July 2021 - Oct 2023

- Researched and wrote technical articles for beginner and intermediate-level engineers.
- Authored Cloud tutorials such as [bash-find commands](#) and [AWS data pipelines](#)

CERTIFICATIONS

Solutions Architect Associate, AWS

April 2022

Certified Cloud Practitioner, AWS

Sept 2021

Cloud DevOps Engineer, Udacity

Sept 2021

Responsive Web Design, freecodecamp.org

April 2020

SKILLS

Cloud: AWS, GCP, Azure | IaC: Terraform, Ansible, CloudFormation, Pulumi | CI/CD: Jenkins, GitLab CI, CircleCI | Containers: Docker, Kubernetes, Rancher | Monitoring: Prometheus, Grafana, Elastic, CloudWatch, PagerDuty | Languages: Python, Bash | Other: Git, Technical Writing

VOLUNTEERING

Person-of-contact, SheCodeAfrica Cloud Bootcamp (Cohort 2)

Aug 2021 - Oct 2021

- Coordinated communication between mentors and participants, ensuring smooth operations for over 50 students. As well as supported learners in adopting DevOps and cloud practices.

Channel Lead, DevCareer (Cloud DevOps Engineering)

May 2022 - Present

- Mentored aspiring DevOps engineers by leading weekly discussions, code reviews, and resource sharing, which has helped over 100+ students gain practical exposure to CI/CD pipelines, Terraform, and cloud platforms

PROJECTS

- [Capstone](#) [Sept 2021]: Built CI/CD pipeline with Terraform + Kubernetes to deploy scalable microservices on AWS.
- [StackOverflow](#) [April 2021]: Designed a REST API with authentication and DB integration.

EDUCATION

Olabisi Onabanjo University, *BSc - Pharmacology* (Second Class Upper)

Nov 2016 - Jun 2021
